INTRODUCTION

Supporting a successful transition to the community and maintaining stability within the offender population is central to the mission of the Kentucky Department of Corrections. The Department protects public safety by ensuring that offenders receive programming to support their successful return to the community. Programs are standardized across the Department, implemented with dedicated resources, and regularly reviewed for quality assurance.

This practical guide was prepared to highlight the Department's programs. Each program summary in this directory contains key information: a Program Description, Time Frame, Admission Criteria, Program Content, Applicable Policies and locations.

The Department maintains a catalogue of evidence-based, life skills, promising practice, and substance abuse programs to address a wide range of reentry, supervision, and incarceration needs. Program offerings vary based on available resources and the needs of the offender population. The Department of Corrections maintains a list of the programs that are currently available.

General Information

Definitions:

Evidence Based Programs are programs demonstrated by scientific research to reliably produce reductions in recidivism.

Promising Practice represents a program that may have some research or data showing positive outcomes but does not meet criteria as an Evidence Based program. Promising practices have a clear focus and includes processes of accountability and evaluation.

Life Skills Programs provide strategies to assist in removing barriers for successful reintegration and address skill areas including time management, money management, use of technology, communication, and social skills.

Substance Abuse Programs are evidence based drug treatment programs for individuals with a substance use disorder.

Program Name	MRT® – Moral Reconation Therapy <i>MRT® is the product of Correctional Counseling Inc. (CCI). MRT® and its related products are property of CCI. CCI is the sole source provider of MRT® products.</i>
Program Description	This Evidence Based program combines group presentations and individual assignments, along with facilitator guidance when necessary. The program was designed in a criminal justice setting for offenders involved in the criminal justice system. MRT® targets an offender’s belief system and attempts to raise their level of moral reasoning in their decision-making process. The MRT® program has been researched for over thirty years and has proven reduction in recidivism levels at multiple points of progress within the program, as well as after overall program completion. MRT® is designed to achieve formal program completion after 12 in-group steps. The workbook for this program is entitled ‘How to Escape Your Prison’® and includes the use of a separate facilitator guide.
Time Frame	Length of time in program is dependent on individual offender progress, although offenders can generally expect to participate in 24-36 open-ended group sessions. Offenders will also be required to work individually on homework assignments as part of the program requirements.
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	All program recommendations are based on their specific criminogenic needs identified in the KyRAS assessment.

Addiction Services

Program Name	Recovery Kentucky Center (RKC) and Reentry Service Center (RSC) Community Long-term Residential SAP
Program Description	Recovery Kentucky Centers (RKC): Through a joint effort by the Kentucky Department of Corrections, Kentucky Housing Corporation, and the Department for Local Government (DLG), Recovery Kentucky was created to assist Kentuckians recovering from substance use disorders and to reduce homelessness. There are 14 Recovery Kentucky Centers across the Commonwealth. Each Center offers a total of 100 treatment/recovery beds, with 60 beds contracted by the Kentucky Department of Corrections in each location. As supportive housing projects, each center uses a recovery program model that includes peer support, daily living skills classes, job responsibilities, and establishes new behaviors. This type of supportive housing and recovery program is proven to help people who face the most complex challenges to live more stable, productive lives. Reentry Service Centers (RSCs): Those individuals in need of Substance Use Disorder treatment, who meet the classification criteria for community custody, may participate in programs available in reentry service centers approved by the department to offer Substance Use Disorder treatment programming.
Time Frame	Recovery Kentucky Centers (RKC): The program can range from 6 to 18 months, however, DOC only requires six (6) months and the offender can choose to stay longer if he/she chooses. The Recovery Kentucky model is broken into 5 Phases: Safe off the Streets (SoS), Motivational Track I (MTI), Motivational Track II (MTII), Phase I, and Phase II (see section on RKC/RSC mentor). DOC only requires SoS, MTI, MTII, and Phase I. Reentry Service Centers (RSCs): The program shall be six (6) months in duration. Most RSCs follow a Therapeutic Community model of treatment, which means it is a participative, group-based approach to long term drug addiction. The community itself, through self-help and mutual support, is the principal means for promoting personal change.
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	Applicant has evidence of a substance use disorder that requires treatment. Applicant shall be deemed appropriate for this level of care by clinical staff within the Division of Addiction Services. Must be medically and psychologically stable – applicable to RKC placement only. From incarcerated population: If an individual receives a recommendation of parole upon completion (PUC) of SAP, they shall be assessed by a Branch Manager or Program Administrator within the Division of Addiction Services to determine the appropriate level of care. If it is determined that the individual is appropriate for community/RKC/RSC they shall be released to treatment in the community.

	From community population: The court or supervising probation/parole officer can refer a client to the community Social Service Clinicians (SSC) to determine the appropriate level of care. Applicant shall have a custody status of Level 1 (community) – applicable to RSC placement only.

Program Name	SAP - VOA
Program Description	Opened July 1, 2019, Volunteers of America Men's Halfway Back Program made available a new level of care to male offenders on probation or parole. VOA's contract has been modified to allow for 45, 60, or 90 days of residential treatment. The treatment model is the same as the customary six-month residential treatment program, but the schedule has been modified to allow the offender to complete earlier based on their individualized clinical progress. A Treatment Team is held weekly in partnership with VOA and DOC Division of Addiction Services staff to review clinical progress and determine who is appropriate for completion of the program.
Time Frame	This is a short-term 45, 60 or 90 days residential treatment program. Length of stay is based on level of care criteria and treatment team review.
Program Credit	This program receives 45 days program credit upon completion.
Admission Criteria	Those individuals in need of treatment for Substance Use Disorder who meet the clinical and classification criteria for community custody at this level of care may participate in this program. Must meet general criteria for referral to Reentry Service Centers approved by the Department to offer Substance Use Disorder treatment programming. Referrals can be made for parolees, probationers, ISC or HIP (limited). VOA HWB Program is not equipped to handle severe mental health issues. Cases may be reviewed on an individual basis. The program is not designed to manage offenders with severe, chronic medical conditions that require frequent doctors' appointments and/or treatments that would call for them to be absent from the facility. This location is unable to serve sex offenders due to women and children being housed on the same campus. Referrals are made through the Community SSC and a specification should be made on the referral form to the Placement Office requesting "VOA HWB Only."

Program Name	Community SAP - Intensive Outpatient Program
Program Description	Through an agreement with the Regional Community Mental Health Centers (CMHC), individuals who meet the clinical and classification criteria may attend a less restrictive 6-month Intensive Outpatient Program (IOP). Offenders meet weekly in an outpatient setting to receive evidenced based substance use disorder curriculum. Offenders must abide by all treatment program standards and submit to random drug screening. Because the majority of the offenders reside in Louisville, Lexington, or Northern Kentucky, the department contracts with treatment agencies in these areas to provide Substance Use Disorder treatment services akin to those offered in the CMHC's. Eligible candidates include MRS, probationers, parolees, HIP, and pre-trial diversions.
Time Frame	This is a six-month program broken into three phases, totaling 56 treatment sessions. Each session is two hours in length. PHASE 1: 3 sessions each week for three months (36 sessions total) PHASE 2: 2 sessions each week for two months (16 sessions total) PHASE 3: 1 session each week for one month (4 sessions total) Offenders in the program may be restarted once, to the beginning of the phase they are in, but the total amount of time in the program cannot exceed 62 sessions.
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	Offenders may be referred to IOP who present with a substance use disorder, which is causing multidimensional instability. IOP can be an entry point into treatment, a step down level of care, or a step up level of care. IOP would be considered for offenders who would likely benefit from structure and accountability. Offenders must be medically and mentally stable to attend two-hour treatment sessions in a group setting outside of their home. From incarceration population: If an individual receives a recommendation of parole upon completion (PUC) of SAP, they shall be assessed by a Branch Manager or Program Administrator within the Division of Addiction Services to determine the appropriate level of care. If it is determined that the individual is appropriate for SAP-IOP and has a verified home placement, and can secure transportation, they shall be released to IOP treatment in the community. From community population: The court or supervising probation/parole officer can refer an offender to the community Social Service Clinicians (SSC) to determine the appropriate level of care.

Program Name	Community SAMAT (Supportive Assistance with Medication for Addiction Treatment)
Program Description	SAMAT is focused on preventing overdose, relapse, and recidivism for individuals with Opioid Use Disorder and/or Alcohol Use Disorder whom have completed or are currently engaged in a Substance Abuse Program (SAP) through the implementation of FDA-approved medication for addiction treatment, which includes Vivitrol (naltrexone). The goal of Community SAMAT is to facilitate a successful transition to an outpatient substance abuse treatment program that utilizes medication for addiction treatment, counseling, and case management upon the participant's release from incarceration in order to reduce overdose, relapse, and recidivism.
Time Frame	Active SAMAT participants being released from incarceration will meet with a community Social Service Clinician as soon as possible to assist in identifying community providers and ensuring treatment is continued and monitored. In addition, any individual on supervision that meets criteria can choose to participate if clinically and medically appropriate. Participants can remain in the SAMAT program as long as they feel it is necessary for their personal recovery.
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	Participants must: ○ Be identified as having an Opioid Use Disorder or Alcohol Use Disorder ○ Voluntarily agree to participate ○ Be on community supervision (parole, MRS, probation, diversion agreement) ○ Have a community medical provider supervising medication management ○ Be able to show documentation of services received from community provider ○ Meet all other requirements of supervision

Program Locations	Available at all Probation and Parole locations in Kentucky May be available with Interstate Compacts dependent on agreement with supervising state.

Program Name	SHARE-CO (Supportive Housing for Adaptive Reentry – Co-occurring)
Program Description	SHARE-CO is a facility for men with co-occurring Substance Use Disorders and Serious Mental Illness. The program addresses the substance use component by utilizing the peer-driven therapeutic community model that the Hope Center Men's and Women's Recovery Program has utilized for many years in its partnership with the Kentucky Department of Corrections. SHARE-CO utilizes Recovery Dynamics curriculum, integrating the twelve-step model with the peer-driven therapeutic community model. Due to comorbid psychiatric conditions, individuals in the co-occurring program require certain accommodations to ensure success. This includes supplementing the peer-driven therapeutic community model with licensed mental health professionals to provide direct services and support. The program also maintains smaller therapeutic community groups, providing a less intimidating and more personal format, which allows both staff and offenders to focus on the particular needs of this group. SHARE-CO is partnered with New Vista, a local community mental health provider, to provide onsite mental health counseling as well as referrals for outpatient psychiatric counseling as needed. Other accommodations include specialized mental health groups that are specific to integrating mental health with the twelve-step model based Recovery Dynamics curriculum, while still affording offenders the opportunity to integrate into classes with the Hope Center Men's Recovery Program to provide them with the full scope of the Hope Center's services.
Time Frame	SHARE-CO is a six (6) month program with options for aftercare services.
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	Offenders may be referred to SHARE-CO if they: ○ Suffer from both Serious Mental Illness and a history of Substance Use Disorder ○ Meet requirements for residential level of care ○ Have the ability to participate in a pro-social therapeutic community model ○ Have no history of violence or present suicidal/homicidal ideations ○ Are stabilized through medication management or other mental health services
Applicable Policies	CPP 30.6 Division of Addiction Services Substance Abuse Program CPP 30.7 Community Substance Abuse Program Good Time Credit KRS 197.045 KRS 439.345
Program Locations	Jacobs House 289 W. Loudon Ave. Lexington, KY 40508

Program Name	SHARE-SMI (Supportive Housing for Adaptive Reentry – Serious Mental Illness)
Program Description	SHARE-SMI is a facility for men with Serious Mental Illness who may not meet criteria for any Substance Use Disorders. Offenders receive onsite mental health screening and diagnostic services, psychoeducational and support groups focused on mental health management, and basic life skills groups. The program provides onsite mental health counseling through a partnership with New Vista, a local community health provider, and have licensed mental health professionals to offer support services, crisis intervention, and assist with other immediate needs. In addition, SHARE-SMI provides referrals for primary health care, job training, vocational support services, educational services, and permanent housing. Offenders are given the opportunity to be referred for Targeted Case Management services to provide ongoing aftercare support once they transition back into the community.
Time Frame	SHARE-SMI is a six (6) month program with options for aftercare services.
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	Offenders may be referred to SHARE-SMI if they: ○ Suffer from Serious Mental Illness ○ Meet requirements for residential level of care ○ Have the ability to participate in a pro-social therapeutic community model ○ Have no history of violence or present suicidal/homicidal ideations ○ Are stabilized through medication management or other mental health services

Program Name	Reentry Drug Supervision (RDS)
Program Description	The Reentry Drug Supervision Program (RDS) is a pilot program resulting from Senate Bill 120. The program seeks to restore lives and reduce recidivism rates of inmates and parolees suffering from substance use disorder. The program consists of two phases lasting a minimum of twelve months or until sentence is completed. Phase one (1) participants will attend group therapy, reentry program team meetings, submit to random drug screens, obtain and maintain full time employment, training, or education, ensure payment of court obligations and supervision fees, indicate an appropriate understanding of recovery principles, attend self-help programs and obtain and maintain housing approved by the re-entry team. Phase two (2) participants will attend weekly meetings with the re-entry team and continue to submit to random drug screens.
Time Frame	The program is twelve (12) months in length.
Program Credit	This program receives 90 days program credit upon completion.
Admission Criteria	Participants meeting eligibility requirements will be given an application and those who submit an application are then reviewed by Addiction Services for program recommendation. Those recommended for the program will be reviewed by the Kentucky Parole Board for release. Participants must meet minimal criteria for DOC substance abuse treatment programming. Participants must have approved home placements in either Boone, Kenton or Campbell County. Participants must not be serving a sentence for a violent offense as defined by KRS 439.3401 or a sex crime as defined by KRS 17.500. Participants must be serving on a class C or D felony that arose from a substance use disorder. They must be within two (2) to five (5) years of release. They may not have previously participated in RDS.
